ABOUT US

Since inception, we believe in creating state of the art designs that compliment a wide range of decor and have constantly strived to improve our product line with efficient craftsmanship and intricate details that are visually pleasing to the eyes, with zero compromise on quality

Our extensive range of product categories even covers other product families giving you a complete solution with luxurious and sleek designs catering to all your ceramic needs for your vision, ensuring quality and efficiency

The Stratoz range of products are manufactured globally to european standards , incorporating the latest design trends and utilizing the most innovative technology and craftsmanship .Our extensive range covers all product categories relating to the bathroom and to complement each other we have created product families with matching sanitary ware , mixers , accessories and baths .The range encompasses value and quality across all levels enabling us to supply hotel and residential contracts as well as having a contemporary retail offer .

Feel the water

THE JOURNEY

The STRATOZ universe is in constant evolution, and the galaxies that create it are increasingly more numerous. New products and great classics makeup the richest and most complete product range on the market. The factory becomes design studios with constant and careful service, made up of useful suggestions in real time. STRATOZ products can be tailored to any interior regardless of scale, application or style. Total flexibility and beautiful form will always be fundamental STRATOZ qualities.

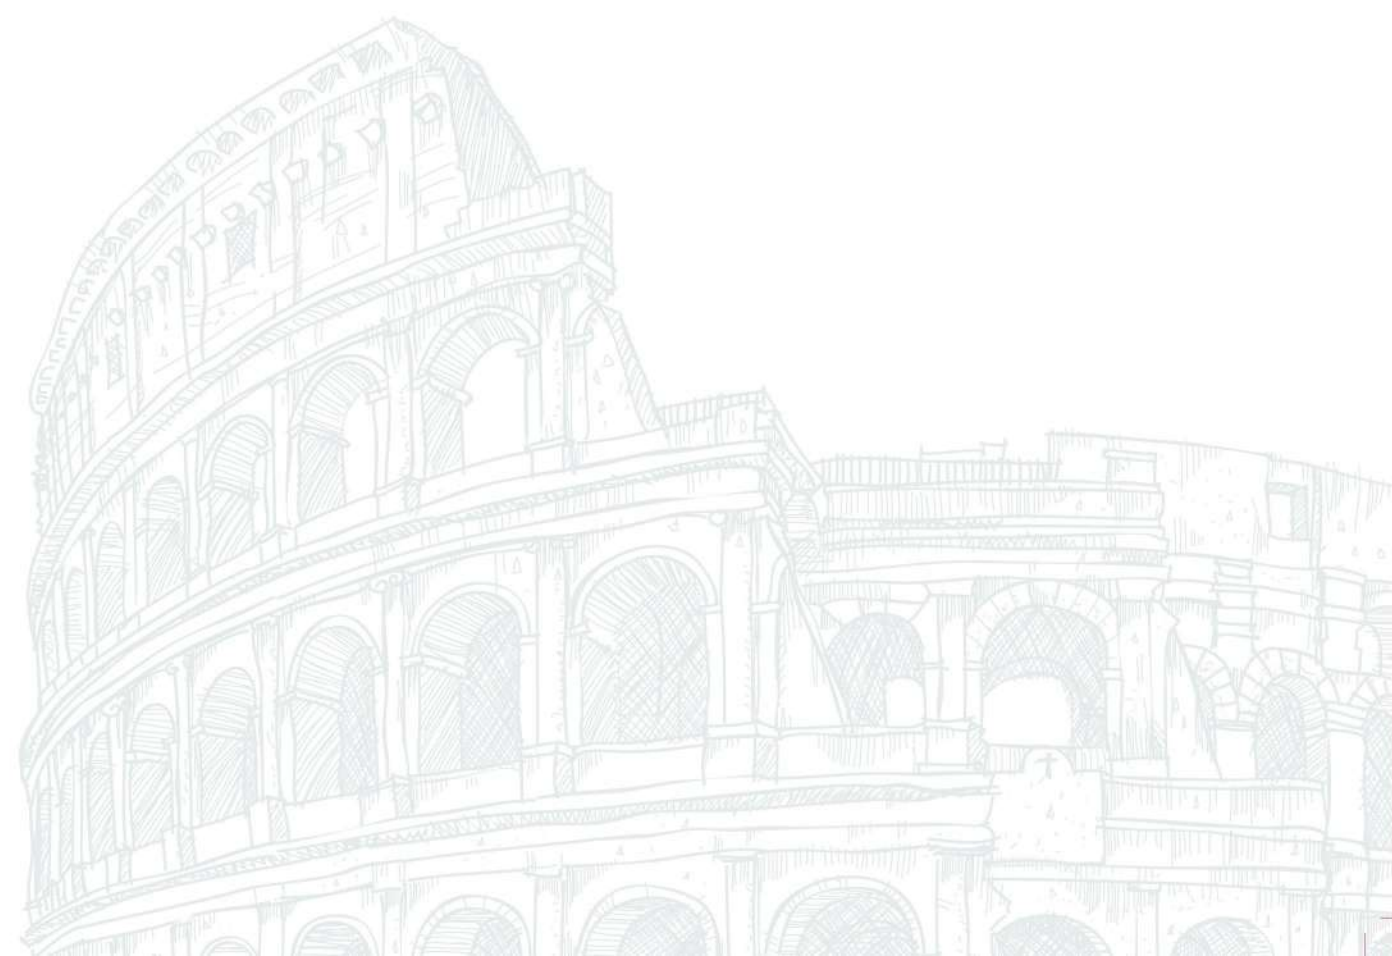

THINKING BEYOND THE EDGE

Modern design and refreshingly high-quality products

If you love beautiful design in the bathroom and kitchen and recognise the importance of excellent quality, then this is the right product for you. You will find an abundance of premium products for showers, bathrooms and kitchens with Stratoz. What's right for you? Check out our range of products: Taps for wash basins, showers and bath tubs. The new products are characteristic of curated living spaces. With the increasing demand for expressive interiors, the washplace also takes on an important role as an essential design element.

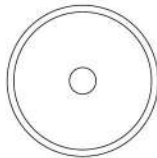

Bathroom inspiration

Our belief that your personal wellness and sustainability starts in the bathroom. Our products are designed to enhance the routine bathroom experience that will ultimately enrich your day-to-day life.

Versatile Timeless.

Versatile, transversal, perfect to fit in different environments. The Terrazzo washbasin collection, available in round, oval and rectangular shapes, is updated to meet a contemporary inclination. Lightness to the whole and at the same time ensuring a greater volume of the basin. The typical round and oval shapes remain unmodified with a very narrow base for support and a wider bowl, while the rectangular version with rounded corners has a perfectly perpendicular volume.

CONTEMPORARY
AESTHETICS.

RIMLESS

Without a rim, regular cleaning is easier than ever before – a quick wipe over with a cloth produces sparkling results every time. You could even use less cleaning products as there is no need to squirt product under the rim to get rid of the germs you can't see

Outside is easy to clean too. The fully back-to-wall design of the Rimless means there are no awkward places for dust to gather.

MIXERS

COLOURS

Designers look for new and innovative finishes in order to create distinctive looks in their designs . At STRATOZ , finishes are the essence that make our products stand out . We create finishes that stay true to the overall sense of style and craftsmanship that we aspire to bring to our customers . In addition to the ever - popular Chrome , we offer refreshing alternatives that help to define the look of a bathroom and in turn the entire home .

Modern kitchen faucets with superior functionality
Different tasks in the kitchen require faucets with different functions. Stratoz offers specialized kitchen faucets that support various needs in the kitchen.

TOUCHLESS

HYGIENIC WAVES

0% Contact
100% Hygiene

STRATTOZ Touchless is characterized by water control system that works without a visible sensor on the fitting, and can be used in combination with all STRATTOZ series. The intuitive system offers ease of use and maximum design freedom. The STRATTOZ Touchless is ideal for guest bathrooms and use in semi-public areas.

THE SUSTAINABLE BATHROOMS

Ongoing research and development for optimal solutions. The sustainability of a product is not a matter of chance, rather it is decided well in advance, at product development. This is why, for decades, STRATOZ has been investing a considerable amount of time, money and energy in research and development – an investment that pays off later for the company, users and the environment. Developers and designers focus on water-saving and energy-efficient solutions, environment-friendly manufacturing, timeless forms that retain their appeal for years and simple product assembly. In order to achieve the best possible results.

GARE

Designing bathrooms for disabled people, particularly for those in wheelchairs, isn't easy. Convenience and safety are two key components of a handicap washroom and wheelchair accessible bathroom. Choosing modern bathroom accessories, furniture, bathtubs, showers and toilets that are cleverly designed to accommodate people with diminished mobility is imperative. A modern bathroom design that combines aesthetics, smart solutions, safe building materials, and easy access is ideal for people with disabilities. Disabled washroom design ideas for people suffering from mobility difficulties necessitate a thoughtful strategy and careful planning. Keen attention to details, including thinking about objects, angles, and functions that could in any way cause problems or even harm to disabled people should be entirely avoided. Here is how you design a handicap washroom to enhance their accessibility and convenience.
